

Global Impact

Providing hope and healing to the nations

One More Child is bringing the hope of Christ to children in developing nations! Whether it is rocking a newborn baby, feeding hungry children, building a home for an impoverished family or transforming an entire community, we are answering the call to demonstrate the love of Jesus. Together, let's give hope to many special children throughout the world!

Mission Trips

If you have a heart to serve children in the developing world and want to be the hands and feet of Jesus Christ, what are you waiting for? Apply for one of our international mission trips online today! onemorechild.org/mission-trips

Child Sponsorship

You can provide support for just \$35 a month for a child in a developing nation, ensuring their physical and spiritual needs are met daily. You can also interact with your child by sharing letters! onemorechild.org/child-sponsor

Give

By giving financially to One More Child, you provide food, shelter and medical care to impoverished children and communities. onemorechild.org/give

Volunteer

To help children thrive, we need volunteers Monday through Friday at our headquarters located in Lakeland, Florida. Volunteers help with clerical needs, sorting donations and more! onemorechild.org/volunteer

Internship

We offer internships for students looking to serve and jumpstart their careers! Internships are available in the Dominican Republic, Uganda, Guatemala and Lakeland. onemorechild.org/global-intern

Pray

Pray for staff members, mission teams and volunteers as we do God's work and bring hope and healing to children and families in need in developing countries around the world!

globe today!**

Here is a snapshot of how One More Child Global is transforming lives around the world!

Dominican Republic

In partnership with the Dominican Republic government, we constructed a community that includes nearly 100 single-family homes, a community transformation center and a church plant. This community transformation center serves as a place where children and families can build positive life-long relationships, take part in life-changing ministry and have access to after-school programs.

Uganda

According to the International Fund for Agricultural Development, 84 percent of Ugandans live in rural areas where children lack access to proper nutrition, education and medical care. We built a medical clinic and three school buildings at Genesis Primary School and lives are being changed because of educational resources, nutritious food and spiritual support.

Nicaragua

We minister at a senior living center as well as meet the physical and spiritual needs of children in Managua. Thousands of children live in high poverty neighborhoods around the capital city, and we help address their physical and spiritual hunger.

Colombia

Nearly one-third of Colombians live in poverty. To provide hope for those in need we work in schools, support medical clinics and work with a local church in Villeta, where we meet the physical and spiritual needs of children.

Costa Rica

We work with a feeding program for children at risk of human trafficking, to provide them a safe place to live and opportunities to find growth and development. We also work with a single moms ministry to provide hope, restoration and self-worth as they try to recover from the emotional and physical trauma of being used and deceived.

Latvia

Through a partnership with a local government agency, we lead a summer camp for children just outside the capital city of Riga. This outreach provides an opportunity to share Christ's love with children who may have never experienced real love and care before.

Tanzania

We provide a safe haven for young children at a Christian primary school located in a predominantly Muslim area. We provide life-changing meals to young children and teenagers who are desperate to have their basic needs met.

Guatemala

According to UNICEF, the chronic malnutrition rate for children under five years old is 50 percent. In 2008, we began helping meet the incredible needs of many of these precious children at the Malnutrition Center in San Juan by providing specialized meal plans, medical and dental care for children who live onsite, plus food baskets for families in the community and more.

Romania

Post-communist Romania is a country that is home to many driven individuals working toward political and social progress. We have a ministry partnership in Oradea, Romania that feeds and engages children in gypsy villages, improves the lives of children at a local orphanage, interacts with children in foster care and works with abandoned babies in a local hospital.

South Africa

Many communities that continue to recover from the apartheid era in this country have substandard housing, limited infrastructure and too few schools and job opportunities. We provide Christ-centered feeding programs that offer children healthy meals and spiritual nourishment they desperately need.

Kenya

In Naivasha, Kenya, the old town jail has been restored to serve as a safe house for children in emergency situations. We fund a feeding program that ensures hot meals on a daily basis for the children, who are trying to find respite in the midst of trauma. Through a local partnership, mission teams work with children and families in impoverished rural Kenya.

Haiti

In 2010, Haiti was devastated by a powerful earthquake, leaving many children without a family, shelter or hope. We partner with an organization that operates a school and orphanage in Haiti to make an impact in the lives of these children. Our role is to assist this organization with their feeding programs that ensure children have adequate nutrition on a daily basis and that they know the love of Christ.
