

# Join the Cause to impact children and families

**You can bring life-changing impact to vulnerable children and struggling families in your own community.** You bring the passion and network of people, and we bring the game plan. Here are ways you can meet dire needs in your neighborhood and city while sharing the love of Christ.

## **Provide Much Needed Support to Foster Children and Foster Families**

Start a wraparound support program to bless foster families in your church or community! Your **FOSTER CREW** can walk alongside families on their adventures and provide meals, household services, babysitting, prayer, encouragement and more. One More Child's expert teams will offer you training and ongoing resources to make your FOSTER CREW thrive.

## **Feed Hungry Children at Local Schools**

1 in 7 children in the United States wonder where their next meal will come from. There are children in your community who do not have meals on the weekend when they are not in school. You can be the bridge between a child and a sustaining meal. Partner with us to start a **BACKPACK MEALS** program where you live.

## **Help Single Moms in Your Community Make Incredible Strides**

Do you have a heart to help single moms in your community? Launch your own **SINGLE MOMS COMMUNITY PROGRAM** with the help of our expert staff, comprehensive training and robust curriculum to help make single-mom families stronger than ever.

## **Host a Party to Pack Nutritious Meals**

What's better than a party? A party with a purpose. Contact us to see how you can host your own **MEAL PACKING PARTY** in which you can pack thousands of meals for children in need. We bring the music, set the scene for community-building camaraderie and create an experience you will not forget. Best of all, children will receive healthy, life-giving food.
