

Start a Backpack Meals Program

Ensure children do not go hungry on the weekend

In the United States, 1 in 8 children wonder where their next meal is coming from. In your community there are students who go home without knowing how much they will have to eat over the weekend. Their grumbling stomachs affect their health, attitude, and their ability to learn. You can step up and meet this need in a fun and cost-effective manner through our **Backpack Meals program**.

What are Backpack Meals?

Through partners like you, bags full of kid-friendly food are packed and distributed to students who need it most, providing nutritious meals over the weekends. Your help provides life-changing food to children right in your community.

How does the process work?

We need churches, community groups, and business partners to “adopt” local schools or host an event to ensure children have access to food on the weekends. We provide you with the supplies and the structure to make a difference!

I am ready to feed children and change lives. What now?

Inquire about starting a Backpack Meals program by scanning the QR code or emailing everychild@onemorechild.org.

When you fill a child's backpack with food you can fill their bellies and fill their hearts.
