

# Global Feeding Program

## Hunger Is on the Rise.

The World Hunger Program states that each day millions of children and adults go to bed with an empty stomach, and one in three suffer from malnutrition. Today, the estimated number of malnourished people is more than 800 million. Malnourishment leads to risks of impaired cognition, weakened performance at school, and a higher risk for disease.

## We Need Your Help!

There are millions of hungry children and families around the globe. One More Child is combatting the hunger crisis through our Christ-centered partnerships that feed the hungry, and more importantly share the good news of Jesus by connecting children and families with a local, Bible-believing church! **One dollar provides four meals for a child** in another country. We serve meals in various countries around the world in **Africa, Asia, Europe, North America, and Central and South America.**
