

Uganda

Home to the source of the Nile and located on the equator, Uganda is a nation rich in diversity that unfortunately experiences many civil and social challenges. According to the International Fund for Agricultural Development, 84 percent of Ugandans live in rural areas where children often lack access to quality education, proper nutrition, and medical care.

This is why One More Child has partnered with an incredible local ministry to build a medical clinic and school buildings at a private Christian school that offers quality education and nutrition to impoverished children. Lives in Uganda are being changed because of the educational resources, nutritious food, and spiritual support provided!
