

New York City

New York City, located in the northeast of the United States, is the most densely populated city in the country with a population of over 8 million. Often referred to as ‘the city that never sleeps’, it is known for its many skyscrapers like the Empire State Building, Central Park, and the Broadway theatre in Times Square.

However, there are many challenges as 18% of New York residents live in poverty. A lack of affordable housing has caused a significant increase in homelessness within recent years. 1.2 million people in New York City are food insecure, making up 50% of food insecure people across New York state. One More Child’s mission teams serve underprivileged children and families in urban areas. We impact families by distributing food, praying for their needs, sharing Bible stories with children, and more as we strive to be the hands and feet of Jesus in this inner-city community.
