

Anti-Trafficking

Providing expert leadership, holistic care, critical education, and powerful advocacy

Each year in the United States, an estimated 10,500 underage youth are coerced into and victimized by the sex trade. At One More Child, we cannot stand the thought of any child enduring the unthinkable trauma of being trafficked. With the compassion of Christ and clinical expertise, we provide care to children and young adult survivors of trafficking, working locally and globally to prevent vulnerable children and individuals from being manipulated into this heinous reality.

A dynamic, trauma-informed approach

COLLABORATION AND TRAINING

We provide 24/7 crisis intervention and ongoing services to sex trafficking victims through our mobile teams, advocacy, mentorship, and mental health therapy. We work tirelessly with schools, medical facilities, law enforcement, the hospitality industry, and others to improve coordinated care.

GLOBAL ADVOCACY AND EDUCATION

The first step in advocacy is education. Our Anti-Trafficking: 101 video course teaches individuals and groups what trafficking is, who it affects, and how to respond.

Help end sex trafficking

GIVE

Every financial gift makes it possible for us to meet the needs of more victims and reach more people locally and globally with education and advocacy efforts.

PRAY

Commit to praying for the trafficking survivors in our care, and the vulnerable children we are working hard to reach every day.

VOLUNTEER

Check out our website to find the latest opportunities to serve.

HOST

Host an Anti-Trafficking: 101 group gathering and equip your community by becoming informed advocates.

Join the Fight to Stop Sex Trafficking

Child sex trafficking is a nationwide epidemic

Polaris, the United States National Human Trafficking Hotline operator, received 51,073 substantive phone calls, texts, webchats, emails, or online tips about potential cases of sex trafficking in 2021. In 2023, a National Survivor Study revealed that 84% of trafficking survivors endured childhood sexual abuse, 96% experienced various forms of abuse, and 93% confronted issues related to drug use or mental health. There are trafficking victims in your city we cannot reach without your help.

The **reality** of trafficking.

Although it is frequently depicted in the news, movies, and social media, human trafficking is often misunderstood. Our Anti-Trafficking: 101 video course is designed to help participants understand what human trafficking is, who it affects, and how to respond.

Engage your community.

Anti-Trafficking: 101 for groups combines expert information that will equip your group to assist in the identification of sex trafficking in your community with hands-on activities that provide meaningful ways for you to aid survivors in their healing journey.

You will learn...

- **What** human trafficking is
- **Who** trafficking affects
- How to **SEE IT, SAY IT,** and **STOP IT** when it comes to trafficking in your community
- **How** to respond so we can reach one more
