

Anti-Trafficking

Providing expert leadership, holistic care, critical education, and powerful advocacy

At One More Child, we cannot stand the thought of any child enduring the unthinkable trauma of being trafficked. However, it is a reality that grows more each day. Survivor studies have revealed that access to behavioral and mental health services and the ability to build a sustainable livelihood are two of the most critical needs for successful, long-term outcomes. With the compassion of Christ partnered with our clinical expertise, One More Child's comprehensive approach to holistic care helps child and young adult survivors rebuild their lives, while our education and advocacy resources help ensure that others are not coerced into this heinous reality.

A dynamic, trauma-informed approach

COLLABORATION AND TRAINING

We provide 24/7 crisis intervention and ongoing services to sex trafficking survivors through our mobile teams, advocacy, mentorship from lived-experience leaders, and mental health therapy. We work tirelessly with schools, medical facilities, law enforcement, the hospitality industry, and others to improve coordinated care.

GLOBAL ADVOCACY AND EDUCATION

The first step in advocacy is education. Our Anti-Trafficking: 101 and Online Safety video courses teach individuals and groups what trafficking is, who it affects, and how to respond, along with critical information on how to keep children safe online.

ONE MORE CHILD® +1

Help end sex trafficking

GIVE

Every financial gift makes it possible for us to meet the needs of more survivors and reach more people locally and globally with education and advocacy efforts.

PRAY

Commit to praying for the trafficking survivors in our care, the staff that walk alongside them, and the vulnerable children we are working hard to reach every day.

VOLUNTEER

Check out our website to find the latest opportunities to serve.

HOST

Host an Anti-Trafficking: 101 or Online Safety group gathering and equip your community by becoming informed advocates.

+1

Join the Fight to Stop Sex Trafficking

Child sex trafficking is a nationwide epidemic

Last year, the National Center for Missing & Exploited Children's CyberTipline received 21.3 million reports, 53,000 of which were identified as urgent or involved a child in imminent danger. The number of children exploited online continues to grow with a 158% increase in the reporting of online enticement and a 323% increase in reported child sex trafficking. As these numbers continue to grow, so does the need for informed advocates in the fight against trafficking.

The reality of trafficking.

Although it is frequently depicted in the news, movies, and social media, human trafficking is often misunderstood. Our Anti-Trafficking: 101 and Online Safety video courses are designed to help participants identify and report trafficking, while also providing critical information on how to protect children from online dangers.

Engage your community.

Share our Anti-Trafficking: 101 and Online Safety video resources with a group, and help equip your community in the fight against human trafficking.

You will learn...

- **What** human trafficking is
- **Who** trafficking affects
- **How** to **SEE IT, SAY IT,** and **STOP IT** when it comes to trafficking in your community
- **How** to protect children from the dangers of the online world
